Mission Statement: *The Appraisal Journal* is published to provide a peer-reviewed forum for information and ideas on the practice and theory of valuation and analyses of real estate and related interests. *The Appraisal Journal* presents ideas, concepts, and possible appraisal and analytical techniques to be considered; some articles are for the development and expansion of appraisal theory while others are useful in the evolution of practice.

Disclaimer: The materials presented in this publication represent the opinions and views of the authors. Although these materials may have been reviewed by members of the Appraisal Institute, the views and opinions expressed herein are not endorsed or approved by the Appraisal Institute as policy unless adopted by the Board of Directors pursuant to the Bylaws of the Appraisal Institute. While substantial care has been taken to provide accurate and current data and information, the Appraisal Institute does not warrant the accuracy or timeliness of the data and information contained herein. Further, any principles and conclusions presented in this publication are subject to court decisions and to local, state, and federal laws and regulations and any revisions of such laws and regulations.

This publication is for educational and informational purposes only with the understanding that the Appraisal Institute is not engaged in rendering legal, accounting, or other professional advice or services. Nothing in these materials is to be construed as the offering of such advice or services. If expert advice or services are required, readers are responsible for obtaining such advice or services from appropriate professionals.

Nondiscrimination Policy: Organized in 1932, the Appraisal Institute advocates equal opportunity and nondiscrimination in the appraisal profession and conducts its activities in accordance with applicable federal, state, and local laws.

The Appraisal Institute advances professionalism and ethics, global standards, methodologies, and practices through the professional development of property economics worldwide.
